NEWARK, NEW JERSEY

JUNE, 1973

PREFACE:

THE NEW EXPLORERS

We walk into a new age. The world we enter is wonderfully strange. No one has been there before us. We carry beliefs from the past and will apply the beliefs to different circumstances. It will be hard.

Langston Hughes wrote that Life was "no crystal stair."

It had tacks in it,
And splinters,
And boards torn up,
And places with no carpet on the floor -
Bare.

While this is certainly true he urged "don't you turn back." We are ready to go on. Our spirit is eager. Our feet reach for a new step.

Perhaps the greatest compliment that can be paid to Mrs. Brooks is to say that she cares. She cares enough to teach us, to help us to learn and have understanding of problems which beset us and our society. She teaches and demands that we learn. But Mrs. Brooks is more than a dedicated teacher. The gentle warmth of her personality and her ever present smile are as warming as the return of an absent friend. We, the students of the graduating class of 1973 affectionately dedicate our yearbook to Mrs. Carrie Brooks.

As this is being written, it appears that American military involvement in Vietnam may be drawing to a close. I hope that we will enjoy the blessings of a long era of peace. It could mean that we will be able to concentrate upon improving living for our people here at home. Meeting the challenge will require many people with education and varied skills. Our hope is that many Clinton Place graduates will find their places among the builders of better communities, among those who are building a better Newark.

Graduation from junior high school is an accomplishment and one of which you can be proud. It is not a key that opens all doors. It does open one important door, the door to high school. A high school diploma will open more doors. As you leave Clinton Place, you take with you the sincere wish of every member of the faculty that you will find continued success and that it will bring happiness with good health.
